EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 2-8,11-13 and 16-26 have been renumbered as 1-21, respectively.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: present application discloses an OFDM receiver comprising jitter compensation circuit to remove jitter present in a received signal. Prior art teaches or suggests in combination the limitations claimed. However, prior art does not teach the combination of the limitations of having a Fourier transform circuit coupled to a buffer, wherein the buffer is further coupled to the jitter compensation circuit. The jitter compensation circuit is further updated by an error signal controlled by a controller. Therefore, prior art does not teach the combination of the limitations claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
